

# Meet McKinsey

What is management consulting all about? How does a McKinsey team work? Interested in helping leading organizations to solve tough challenges by harnessing data? Intrigued? It is our pleasure to invite you to join us for a casual evening with our consultants.

During the evening we will give you a glimpse of life as a consultant through engaging conversations. You will discover how we help our clients in practice, and get to know the toolkit that enables us to tackle specific business challenges.

We very much look forward to meeting you!
