

Corporate Finance Analyst Internship 2020

Danske Bank Corporate Finance (“DBCF”) is currently looking for outstanding students to join its team as interns during 2020. Positions are open for the spring, summer and autumn periods, each internship period lasting typically 4 to 6 months. The internship programme is DBCF’s main recruiting channel for new analysts and top-performing interns are offered the opportunity to work as full-time investment banking analysts after graduation.

At DBCF, a high level of responsibility is given already at the entry level. Our working environment is team-focused, dynamic and challenging, allowing everyone to learn from each other and develop their professional skills. We work in close co-operation with our colleagues in the Nordics and in London, as well as other departments of Danske Bank and members of our international partner network. Tasks vary considerably across different advisory services and client industries, but you should expect to gain exposure to DBCF’s business and expand your knowledge of the investment banking industry while developing your analytical and communication skills.

To succeed at DBCF, you should have excellent analytical and interpersonal skills and the ability to assume new responsibilities quickly. Successful candidates are highly motivated, ambitious and hard-working with strong motivation to perform. You should have an outstanding academic record and more than 120 ECTS credits.

In order to apply, please send a one-page cover letter and your CV including a transcript of your academic records and high school diploma as one PDF or Word file to Executive Assistant Pirkko Viljanen at pirkko.viljanen@danskebank.com. Please indicate in your application your availability for each internship period (spring / summer / autumn). **The application deadline is 18 September 2019, however we expect to start interviewing candidates already prior to the deadline.**

Please address any questions regarding the recruitment process or Danske Bank to either of the following representatives of DBCF: Associate Elise Tuuppa (010 546 7931 / elise.tuuppa@danskebank.com) or Head of Corporate Finance Pekka Hiltunen (010 546 7929 / pekka.hiltunen@danskebank.com).
